

AAC/AT in the Mountains
Park City, UT July 28, 29 2016

Participation for All Students!
July 28 & 29 2016
The Prospector Lodge
and Conference Center
Park City, UT

Dan Herlihy , At Consultant
Pati King-DeBaun, M.S. CCC-SLP

Don't miss this fun and educational event in a beautiful mountain setting. Beware you might not want to leave Park City once you come. A conference you won't want to miss.

From participants in the past...

"Wow, what a great conference in such a beautiful place! The garage sale and picnic were amazing!
Amy Sadler

"Thank you for making this an informative and fun event. The location was amazing! Love Park City!"
Eric Ultch

Dan Herlihy has worked in the education field for over 30 years, working in Special Education classrooms, as a Computer Resource Specialist, Network Administrator, Assistive Technology Resource Specialist and developing Wilderness Programs for at risk students. Currently Dan is a private consultant providing training and professional development to educators on how to use and integrate technology in the classroom. He presents nationally and internationally at conferences and in school districts on topics ranging from Technology Solutions for Struggling Students, Knowledge and Accessibility, Promoting Higher Ordered Thinking, Using 21st Century Tools for Teaching & Learning, Creating Access on the Fly, Working with High and Low Incidence Disabilities.

Pati King-DeBaun, M.S. CC-SLP is a certified speech language pathologist who has specialized in communication and early literacy instruction for children with severe and multiple disabilities for the past 30 years. Pati speaks and consults in a variety of classrooms nationally and internationally on the topics of interactive communication, augmentative communication, and early literacy for children with disabilities. Pati has written several books and software programs. She has developed Apps including the Adapted Play Book Series, MyOwnBooks2go and AAC2go Apps. She has a patent on an adapted keyboard. She has consulted with various technology companies to support and /or help with the development of new products. Pati has worked on several projects with various school systems and programs directing the language and literacy into instruction for their AAC.

Everyone Communicates! - Pati King-DeBaun, M.S. CCC-SLP

Regardless of the communication system, light or tech-based, students should be able to communicate and be a contributing member of the classroom. Even students with the most significant disabilities can be a part of classroom activities and learn. First, a discussion of what, why, and how to determine what is an effective communication system that meets the current and future needs of students. Learn strategies for teaching a comprehensive communication program within inclusion or special education situations that align with any curriculum content.

Everyone Learns- Dan Herlihy, AT Consultant

Filter through your list of apps to create a core that truly provide all your students with a successful experience in learning, and engagement using the iPad. This session will demonstrate how to apply a filter to a sampling of apps that can be utilized across all subjects throughout the school experience. Learn about alternative access for the iPad and various other technologies. Learn about other smart technologies such as Android and access. Learn how to create accessible testing based materials with various products and technologies will be addressed for a wide range of abilities. Participants are welcome to bring iPads and follow along.

Pati and Dan will infuse their skills together to provide a unique learning experience!

The workshop will include:

The Integrated Model of Communication
A Roadmap for Teaching AAC
Communication Strategies in the classroom
Inclusion of technology everywhere
Adapting materials for success
Supporting Reading Instruction

Supporting Writing Instruction
Apps in the classroom
Switch and adapted access
Creative Learning solutions
Informal Assessments & IEP Goals for AAC User
.....And so much more!

Through lectures, demonstrations, videos, hands on opportunities, and group brainstorming.
A schedule will be available online This workshop will be worth 1.2 CEU.

*Park City was the alpine heart of the 2002 winter Olympics. Park City was founded as a silver-mining town in 1869. By 1900, the second largest silver strike in U. S occurred in Park City. It was a booming mining town with 10,000 residents and 100 saloons. Elevation: 7000' at Main Street (ranges from 6500'- 10,000') Today it is a vibrant ski town with the largest ski area in North America. Summer in Park City is our best kept secret with snow covered slopes ,cool mountain breezes, wildflower-covered hillsides and over 400 miles of wooded trails for mountain biking and hiking, over 100 restaurants, world-class events, and much more.
For Families with Special Needs
The National Ability Center is also in Park City. It offers a range of activities including adaptive riding and trail riding and an adaptive play ground. Call to find out more information 435-649-3991.*

The AAC and AT Garage Sale will be held throughout the conference.
